

Available to all Wisconsin residents, the [Wisconsin Digital Library](#) offers eBooks, audiobooks, videos and music that you can download to devices such as Kindles, Sony eReaders, NOOKs, and iOS devices (to name just a few).

For a complete list of supported devices, visit [OverDrive's Device Resource Center](#).

The Wisconsin Public Library Consortium began as a small group of library systems in mid-2000, and now includes nearly all the libraries in the state. WPLC is governed by the WPLC Board which includes a representative from each library partner. Their primary goal is:

*“To provide Wisconsin citizens with access to a collection of electronically published materials in a wide range of subjects, from expensive reference titles to recreational reading materials, which they may access from home, work or school or from any library in the Consortium.”*

## **Getting Started...**

In order to check eContent from Wisconsin's Digital Library you must have a valid library card. If you do not have a valid library card you may visit any of the libraries that are part of the Wisconsin Valley Library Service. You will need a Photo ID and proof of current address.

Not sure where to start? Click on the following links for instructions from the Overdrive website:
